Nurture Sync brings all essential healthcare tools into one secure ecosystem.

We hold patents for our novel architecture that enables accurate medicine identification and safety analysis.

Now let's look at how NurtureSync works as a sustainable business.

Our core value proposition is patient safety through digital health profiles, drug compatibility checker and tablet image analysis.
We generate revenue through premium subscriptions, ads and B2B partnerships with hospitals.

India's digital health market is projected to reach nearly 107 billion US dollars by 2033.

We are starting with Andhra Pradesh and Tamil Nadu, targeting chronic care patients, doctors, and healthcare providers

Our vision is to make healthcare safer and smarter and accessible.
NurtureSync aligns with SDG 3, SDG 9, and SDG 10.

The app is currently in closed testing and will be available on the Play Store soon
We have already onboarded 10 doctors, 15 patients, and students from Stanley Medical College, and refined our solution through their feedback. Let's hear from one of the doctors.

Introducing our team
Nandini , Vishal, Sarvesh and Pranesh
the people behind bringing this idea into reality.

Thank you
